9:02 PM **me**: Raimondo's a fucking idiot
9:03 PM **BushwickBK.com**: now what
9:06 PM **me**: guy discounts the Russian bombings out of hand
9:07 PM **BushwickBK.com**: he's done some serious defending of Putin
as I understand it, just to stick it to the neocons
that was one of the big subjects the rest of us fought with him over
9:08 PM if he didn't have his bullshit title it wouldn't matter
he doesn't actually DO any editorial directing
as in, zero
me: guy is totally irrational
BushwickBK.com: he has absolutely nothing to do with any part of the site except his column
me: easily beaten in two rounds of debate
BushwickBK.com: debate on what
me: Russian bombings
9:09 PM 1999
BushwickBK.com: who did he debate
me: he is debating them right now
sorry, me
BushwickBK.com: oh
oh
in email?
me: gchat
BushwickBK.com: ah
me: I was asking him about Russia Today
and assumed he was open to this possibility
9:10 PM didn't realize his hatred of neo-cons was such that everything they hate must be defended
BushwickBK.com: that's been a problem I think, yes
9:15 PM I haven't read much about it, and not in years, so I don't know anything except to say I believe that Putin could do it
it's Russia, not some real country
they starved half of the Ukraine; they could blow up a couple bldgs
